SUBJECT INDEX

Actinocamax: from Kansas (52)
Alabama: Cocoa Sand, ostracodes (62)
Alaska: Cretaceous ammonites (17); ammonites, new genera (50)
algae: Jurassic Gulf Coast (53); Pennsylvanian and Permian (59)
amber: fossil insects, Mexico (82)
ammonites: family Binneyitidae (16); Alaska, Cretaceous (17); feather structure (40); literature, Mesozoic (41); from Alaska (50); muscle attachment (54)
ammonoids: Permian, Australia (36)
Ankhelasma Sando: Mississippian coral (93)
Anticosti Island: bryozoans (90)
Archimides: occurrence (63)
Arizona: species of *Palaeohelcura* (8)
arthropods: Silurian, New York (65); trilobites, Ordovician (124)
Asaphiscidae: Upper Cambrian (66)
Aspidotheca: gastropod genus (115)
Auloblastus: new blastoid (4)
Australia: Permian ammonoids (36); brachiopod fauna (72); Mesozoic plant spores (80); Silurian coral (91); brachiopods, Permian (106)
Bairdia: species of, review (60)
barnacle: Miocene (126)
Bellefonte Dolomite: sponge spicules (12)
Benton Formation: Kansas (52)
bibliography: micropaleontology, review (75)
bighorn sheep: Pleistocene (108)
biogeography: Tertiary horses (99)
Bird Spring Formation: fusulinids (85)
birds: caves, Cuba (10)
blastoids: morphology (3); new (4); *Pentremites* Say, type of (33)
brachiopods: *Leptodus* in Phosphoria (24); Pennsylvanian, southwest Missouri, correction (44); Silurian, Oklahoma (51); Carboniferous, Queensland (72); inarticulate, Minnesota (92); Devonian (96); Australia (106)
Brazil: Pliocene (101)
British Columbia: Middle Cambrian (127)
bryozoans: Ordovician (90)
Burgess Shale (127)
Burlington Limestone: new blastoid (4)
Busycon (*Busycon*) *tritone* Conrad (32)
California: Silurian (14); vertebrate (120)
Calpocaris: substituted name (88)
Cambrian: brachiopods, Minnesota (92;) Middle (127); gastropods (130)
Canada: Silurian trilobite (5); Mesozoic plant spores (80); plant spores (98); stromatoporoids, Rocky Mountains (105); fusulinids (116); Middle Cambrian (127)
Captorhinus: a cotylosaur (119)
Carboniferous: vertebrates (22); Lower, brachiopod faunas (72)
Caribbean Islands: orbitolinas (21)
Carlile Shale: gastropods (56)
Castle Hayne fauna: Eocene, North Carolina (13)
catalogue: plant spores (45)
Central Appalachians: trilobites (83)
cephalopods: major divisions (35)
Chaetetes: Wyoming (11)
Chazyan corals: rocks of Vermont (121)
chimaeroid: Cretaceous (27)
Cingulatisporites: genus, spore (81)

classification: rhizopods, suprageneric (68)
Cloudia buttsi Knight (130)
Cocoa Sand: ostracoides, Alabama (62)
Coconino Sandstone: Arizona (8)
Colorado: fusulinid (48); Eocene, mammals, review (125)
Concavicaris: substitute name (88)
conchostracans: genera (111); new family (113); Leonardian (114)
Coniconchia: class (128)
conifer: Pleistocene (2)
conodonts: Upper Devonian (28); Big Horn (61); Kinkaid (84); Illinois (97)
corals: Missouri (7); Pennsylvanian (73); Permian, Nevada and Russia (74); Australia (91); Mississippian (93, 94); Devonian, Hamilton Group (109); Chazyan, Vermont (121)
Costa Rica: echinoids (23); Valle Central (126)
coytlosaur: early Permian (119)
Cowlitz Formation: nautiloid (78)
Cretaceous: belemnoids (6); mammal, Utah (15); ammonites, western United States (16); ammonites, Alaska (17); orbitolinas (21); chimaeroid (27); ammonite (54); dinosaur, New Mexico (77)
cryptostome: bryozoans (90)
Ctenognathodus: Fay (129)
Cuban caves: birds and mammals (10)
Curticia Walcott: brachiopod (92)
Dapcodinium priscum: description (30)
Decorah Shale: Minnesota (110)
Denmark: dinoflagellate (30)
dentition: *Proterix loomisi* (70)
Devonian: Upper, conodonts, Wyoming (28); Middle, fauna, Formosa Reef limestone (31); fish (76); New York (96); conodonts, Illinois (97); plant spores, Canada (98); stromatoporoids, Canadian (105); coral, New York (109); grastropod genus (115)
didelphid: marsupials (47)
dinoflagellate: Lower Lias, Denmark (30)
dinosaur: Cretaceous, New Mexico (77)
discoasterids: preparation of samples (43)
divisions of cephalopods (35)
Dragon Canyon, Utah: mammal (15)
Dresbachian: trilobites, Appalachians (83)
echinoids: Miocene, Costa Rica (23)
Encrinurus ornatus (5)
Eocene: Castle Hayne fauna (13); nautiloid, Washington (78); mammals, review (125)
Eugonophyllum: new genus, algae (59)
eurypterids: Welsh Borderland, Silurian (58); Salina group (65)
evaluation of leaiid conchostracan genera (111)
evolution (19)
family Asaphidae (29)
feather structure: *Placenticeras* (40)
fern fossils (1)
fish: Devonian, Germany (76)
Foerstephyllum Chazyan: Vermont (121)
Foraminifera: Puerto Rico (37); Mississippian (39); Recent, review (67); localities (71); Miocene (126)
Formosa Reef: limestone (31)
fossil ferns: Ohio (1)
Franconian: trilobites (83)
Frederick Limestone: trilobites (83)
fusulinids: Colorado (48); Bird Spring Formation, Nevada (85); paleoecological indicators (89); Pennsylvanian (116)
gastropods: Miocene (32); Cretaceous (56); genus *Aspidotheca* (115); Cambrian (130)
Gazelle Formation: California (14)
Germany: Devonian, fish (76)
Globoblastus norwoodi: blastoid (3)
Gorman: nautiloids (117)
Great Basin: Tertiary horses (99); bighorn sheep (108)
Guembelina Kuntz: genus (69)
Gulf Coast: Jurassic algae (53)
hadrosaurian dinosaur (77)
Hardinsburg Formation: spores (45)
Hell Creek Formation: correction (87)
Honeycut nautiloids (117)
horses: Tertiary (99)
Hyolithes: operculum (127)

Illinois: Hardinsburg plant spores (45); conodonts (84); conodonts, Devonian (97)
Indiana: Pleistocene conifer (2)
indicators: fusulinid, paleoecological (89)
insects: amber, Mexico, Oligocene (82)
Jackson Group: Eocene, ostracodes, Cocoa Sand (62)
Jurassic: ammonites, Alaska (50) Gulf Coast (53)
Kansas: fossil, Pennsylvanian plants (42); Upper Cretaceous (52); paleolimnology (112)
Kentucky: Hardinsburg plant spores (45)
Kimmswick: trilobite, new (26)
Klamath Mountains, California (14)
Lajas Valley, Puerto Rico (37)
Lantanotherium (120)
leaiid: conchostracan genera (111)
Leiorhynchus: redescription (96)
Leonardian: conchostracans (114)
Leptodus: western United States (24)
literature: Mesozoic ammonites (41)
localities: Costa Rican, foraminiferal (71)
Louisiana Limestone: conodonts (97)
Lower Lias: Denmark (30)
Magnetic separator (25)
mammals: Cuba (10); Cretaceous, Utah (15); review (125)
marine mollusks: Triassic (100)
marsupials: Oligocene (47)
Matthews Landing Marl (49)
Mesozoic: ammonites (41); plant spores, Canada (80)
metriophylloid coral (109)
Mexican: Oligocene, amber (82)
Microaulopora Kuntz, genus (69)
micropaleontology: magnetic separator (25)
micro-sample splitter (57)
microspore: *Cingulatisporites* (81)
Middle Cambrian: *Hyolithes* (127)
Minnesota: Cambrian brachiopods (92); Decorah Shale, ostracodes (110)
Miocene: echinoids, Costa Rica (23); gastropod (32); Foraminifera (37, 126); Turritellidae (79); fossil catfish (103)
Mississippi: Matthews Landing Marl (49)
Mississippian: corals (7, 93, 94); Foraminifera (39); conodonts (84)
Missouri: Mississippian, corals (7); trilobite, new (26); Pennsylvanian, brachiopods, correction (44)
mollusks: Miocene (126)
Montana: Oligocene, plants, review (38); Foraminifera (39); Hell Creek Formation, correction (87)
morphology: blastoid (3)
muscle attachment (54)
Natchez Pass Formation: Nevada (100)
nautiloids: Eocene, Washington (78); Central Texas (117)
Nemocardium nicolletti: Paleocene, Mississippi (49)
Nevada: occurrence of *Archimides* (63); coral (73); rugose coral (74); fusulinids (85); Upper Triassic, mollusks (100)
new genera: ammonites, Alaska (50); conchostracans (111); terebratuloids (107)
New Mexico: Mississippian corals (7); Pennsylvanian algae (59); dinosaur, Cretaceous (77)
New York: Salina Group, arthropods (65); Hamilton coral (109); Silurian trilobites (123)
Niobrara Formation: Kansas (52)
nomenclature: change (27)
North America: tortoises (9)
North Carolina: Castle Hayne fauna (13)
Ohio: fossil ferns (1)
Oklahoma: Foraminifera (39); Silurian brachiopods (51)
Old Cannindah, Queensland (72)
Oligocene: plants, review (38); marsupials (47); amber, Mexico (82)
Ontario: Middle Devonian (31)
ontogeny: trilobites (29)
operculum: *Hyolithes* (127)
orbitolinas: Caribbean Islands (21)
Ordovician: spicules (12); trilobite, new (26); trilobites (29); bryozoans (90); Decorah Shale, ostracodes (110); nautiloids (117); Middle, trilobites, Nevada (124)
ostracodes: Sabine Lake and Sabine Pass (55); Alabama, Eocene, Cocoa Sand (62); families of Decorah Shale (110); correction (118)
Owl Canyon: fusulinid (48)

Palaeohelcura Gilmore: Arizona (8)
Paleocene: Matthews Landing Marl (49): Pantodonta, review (20)
paleoecological indicators: fusulinids (89)
paleolimnology: Kansas (112)
paleotemperature: Cretaceous, belemnoids (6); measurements (6)
Paleozoic: ostracodes, review (60); Radiolaria (86); terebratuloids (107)
Pebas Beds: Brazil (101)
pelecypods: Matthews Landing Marl (49); Triassic (64)
Pemphilimnadiopseidae: new family (113)
Pennsylvanian: fossil ferns (1); plants, Kansas (42); brachiopods, correction (44); algae, New Mexico (59); fusulinids, Canada (116)
Pentremites Say: type of (33)
Permian: Arizona (8); brachiopod (24); sponge, Park City Formation (34); Australian ammonoids (36); algae (59); coral, Nevada (74); brachiopods, Australia (106); conchostracans (114); cotylosaur (119)
Phosphoria Formation: brachiopod (24)
Placenticeras: feather structure (40)
Plant spores: Hardinsburg Formation (45); Mesozoic (80); Lower Devonian (98); new (104)
plants: Oligocene, Montana, review (38); Pennsylvanian, Kansas (42)
Pleistocene: extinct conifer (2); bighorn sheep (108)
Pliocene: Brazil (101)
Preparation: samples, discoasterids (43)
problem: species (122)
"*Proteonina difflugiformis*": revision (102)
Proterix loomisi (70)
Pterocaris: substituted name (88)
Puerto Rico: Miocene, Foraminifera (37)
Quasicaris: substitute name (88)
Queensland: Carboniferous, brachiopod faunas (72)
Radiolaria: Paleozoic (86)
rhizopods: classification (68)
Ringicula: Upper Cretaceous (56)
rodents: caves, Cuba (10)
Sabine Lake, Texas: ostracodes (55)
Sabine Pass, Texas: ostracodes (55)
Salina Group: arthropods (65)
sample splitter (57)
samples: preparation (43)
Seabee Formation: Alaska, Cretaceous (17)
separator: magnetic, micropaleontology (25)
Silurian: trilobite, Canada (5); brachiopods (51); eurypterids (58); arthropods, New York (65); bryozoans (90); coral (91); *Hemiarges* trilobites (123)
South Dakota: Miocene, catfish (103)
Spathognathodus Branson & Mehl (129)
species: problem (122)
sponge: Permian, Wyoming (34); spicules (12)
spores: new (104)
stromatoporoids: Canada, Devonian (105)
suprageneric classification (68)
Syracuse Formation: New York (65)
Syringopora multattenuata: redescription (73)
Tasmanites rockvillensis: suppression (18)
Tensleep Formation: *Chaetetes* (11)
terebratuloids: genera (106); new genera (107)
Tertiary: biogeography, horses (99)
Texas: Foraminifera (39); ostracodes, Sabine Lake and Sabine Pass (55); nautiloids (117)
tortoises: western North America (9)
Triassic: pelecypod (64); Upper, mollusks (100)
trilobites: Silurian, Canada (5); Silurian, California (14); Kimmswick, new (26); ontogeny (29); Upper Cambrian, Wyoming (66); Dresbachian and Franconian (83); Cornwallis Island (123); Middle Ordovician, Nevada (124)
Turritella: Miocene (79)
type of: *Pentremites* Say (33)
Upper Cambrian: faunas, Wyoming (66)
Utah: Cretaceous, mammal (15)
Upper Juruá River, Brazil (101)
Valle Central, Costa Rica (23)

vertebrates: origin (19); nomenclature (22); fossil (70): Miocene, catfish (103): California (120)
Virginia: Miocene gastropod (32)
Ward Hunt Island: fusulinids (116)
Washington: Eocene nautiloid (78)
Welsh Borderland: eurypterids (58)
Western Interior: Cretaceous ammonites (16)
Wind River Mountains: Cambrian faunas (66)
Wolfcampian: fusulinid (48)
Wyoming: Tensleep corals (11); Upper Devonian conodonts (28); Permian sponge (34): Big Horn conodonts (61): Upper Cambrian faunas (66)

JOURNAL
OF
PALEONTOLOGY

VOLUME 35

ERWIN C. STUMM
M. L. THOMPSON
CHARLES W. COLLINSON
EDITORS

PUBLISHED AT TULSA, OKLAHOMA
BY
THE SOCIETY OF ECONOMIC PALEONTOLOGISTS
AND MINERALOGISTS
AND
THE PALEONTOLOGICAL SOCIETY
WITH THE GENEROUS SUPPORT AND COOPERATION OF
THE AMERICAN ASSOCIATION OF PETROLEUM GEOLOGISTS
AND
THE GEOLOGICAL SOCIETY OF AMERICA

Volume 35 of THE JOURNAL OF PALEONTOLOGY was mailed on the following dates: No. 1—January 18, 1961; No. 2—March 22, 1961; No. 3—June 7, 1961; No. 4—August 16, 1961; No. 5—September 15, 1961; No. 6—December 28, 1961.
